

Driving Directions: Go about 8.5 miles west from Bondurant (11 miles east from Hoback Junction) on Highway 189 / 191 to where USFS Road 30500 comes in from the north. Take this good gravel road about 1.5 miles to where Little Granite joins Granite Creek from the north. The instream flow segment extends from this point on upstream about 8.5 miles to the Gros Ventre Wilderness boundary. The road parallels the segment over almost the entire length of the segment.
